

IDOC-PAD-DSC

TableTop Docking Station for iPad™

Provides a very stylish solution for transforming the Apple iPad into a stationary tabletop Crestron touchpanel. Its rigid base keeps the iPad firmly in place, angled perfectly for controlling your home or boardroom. The IDOC-PAD-DSC charges the iPad while docked, and allows the iPad to be easily undocked if desired for fully portable use.

Complete specifications coming soon!

- > Stylish tabletop docking station for the iPad
- > Turns the iPad into a stationary Crestron touchpanel
- > Designed for seamless integration with our Crestron Mobile Pro® G control app
